The Chicago Pneumatic CP 0112 light breaker is a lightweight, yet rugged demolition tool with a vibration reduced handle. The paving breaker is designed for light to medium construction and plant maintenance work such as demolition of floors, pavement, bridge maintenance, asphalt, frozen ground, and masonry walls.

Jack Hammers require minimal servicing to maintain peak operating efficiency over extended periods of rugged use.

Features:

- Alloy steel forgings provide excellent durability
- Four-bolt back-head design withstands rugged use
- CP 0112 is equipped with an integral oiler that provides continuous lubrication
